New York State Model Schools Program

Mission Statement

The mission of the New York State Model Schools Consortium is to leverage technology to transform education to improve the learning and lives of students.

Goals

- Enhance communication among BOCES/RICS and the State Education Department by sharing information and resources with each other and local school districts
- Support learning through quality curriculum, staff and organizational development
- Collaborate with the State Education Department in planning and implementing technology integration through curriculum, instruction, and assessment
- Provide professional development leadership

ITD TALKS: Technology And Leadership Keynote Series

The Technology and Leadership Keynote Series brings engaging educational technology experts to Central New York to inspire, teach, and share the very best in technology leadership and integration strategies. Model Schools membership reserves a seat for one district representative at all TALKS events. You may purchase more seats by contacting the Model Schools Coordinator.

100+ Professional Development Opportunities

Model Schools Consultants provide professional development through webinars, face-to-face workshops, video conferences, and on-line training. Workshops are free of charge for teachers and administrators in the OCM BOCES region. To view the calendar and register for a workshop, visit our website: <http://itd.cnyric.org>. Contact the Model Schools Coordinator to suggest a workshop that is not currently offered.

Three Days of District-Based Support

The Model Schools Program offers three days of on-site support to districts to effectively integrate technology into the curriculum. Model Schools Consultants design and implement professional development customized to each district's technology and instructional initiatives. Contact the Model Schools Coordinator to schedule a visitation, plan a workshop, or purchase more days of on-site support.
